

The Hardy Plant Society was formed to foster interest in hardy herbaceous plants. It aims to give information about the wealth of both well- and little-known plants, and to ensure that all worthy plants remain in cultivation and have the widest possible distribution.

President: Roy Lancaster
Vice Presidents: Dilys Davies, Tony Lord, Brian Mitchell and Gwladys Tonge

Contents

Plants that deserve a wider audience

Some superb plants, for only the very best will do
Val Bourne 3

Eyeful or awful?

Colour can both soothe and lift one's spirits
Judy Harry 9

Geraniums – a personal appraisal

There's a geranium for every situation, playing a crucial role in the garden
Ursula Williams 16

Book Review

23

Patagonian plants we grow in Britain

A surprising number of plants from the South American Lake District thrive here
Keith and Lorna Ferguson 25

In search of the blue poppy – a botanical trip to Sikkim

Seeing in their own wet high places many of the plants Joseph Hooker brought back to our gardens
Ruth Baumberg 33

Is your garden buzzing?

Bees and other pollinators are in dire straits; gardeners can and must help
Tim Riggs 41

2015: Year of the Sunflower

Perennial sunflowers are more than 'yellow daisies' – they sustain wildlife and bring colour to the late-season border
Irene Tibbenham 49

Over the garden wall in Worcestershire

The HPS is a broad church; here some Hardy Planters tell us about their gardening interests and styles
Mick Dunstan 55

Taking time to smell the roses

New rose gardens include significant perennial interplanting; does this mean the roses will be healthier?
Heather Russell 61

Propagating stonecrops for creative planting

The most effective ways to raise low-growing sedums
Kevin Line 63

The HPS Advisory Service

Sample correspondence from our personal GQT service 68

Showing off the Hardy Plant Society

Local Groups wave the HPS flag with stunning displays 71

The seed receivers' apprentice

Collecting your seed and mailing it off is only the start...
Sue Bosson 75

A helianthus by any other name – full circle

An update on the ID of a puzzling plant
Helen Mount 77
