

## HPS CONSERVATION SCHEME PLANT PROFILE

Plant name:

Verified by (where known):

### IMAGES

Introduced by (HPS Group):

Date introduced:

Reason for being in scheme/Distinguishing Features:

Height cm x Spread cm

Foliage:

Flowers:

Flowering time:  J  F  M  A  M  J  J  A  S  O  N  D

Soil types:  any  acid  neutral  alkali/chalk

free-draining  moisture retentive  wet  gritty/gravel

Aspect:  full sun  part shade  full shade  sheltered

exposed  coastal  frost pocket  average

Pest/disease:  slugs/snails  vine weevil  rabbits/deer  aphids

rust  mildew  leaf spot  eelworm

Propagation:  division  soft cuttings  root cuttings  basal cuttings

semi-ripe cuttings  hardwood cuttings  rooted stem cuttings

with bottom heat  without bottom heat  under glass  outdoors
